

Subject: Support for Starlink Internet Services Namibia (Pty) Ltd License Application

Name: your name

Contact: you number

Email: your email

I am writing to express my strong support for the telecommunications service license application submitted by Starlink Internet Services Namibia (Pty) Ltd.

The approval of this application is critical for the advancement of Namibia's digital landscape for several key reasons:

Rural Connectivity: Starlink provides high-speed access to remote and underserved areas where traditional fiber infrastructure is difficult to deploy, bridging the digital divide effectively.

Economic Growth: Reliable internet is vital for the growth of local businesses, tourism lodges, and educational institutions outside of major urban centers.

Consumer Choice: Introducing a Low Earth Orbit (LEO) satellite provider will foster healthy competition, encouraging better service delivery and competitive pricing across the market.

I respectfully urge the Authority and the Ministry to expedite the review process and grant the necessary approvals to allow Starlink to operate legally in Namibia.

Sincerely,
